

TC 101/17 | PHRS Circular regarding amendments to Ship Energy Efficiency Management Plan (SEEMP)

Subject: PHRS Circular regarding amendments to SEEMP

Addressed to: Ship Owners/Managers of the ships

Category Ref.: Technical Library/ PH.R.S. Circulars

Dear All,

We would like to draw your attention on proper maintenance of the ship's Energy Efficiency Management Plan (SEEMP) in accordance with the requirement of Regulation 22.2 of MARPOL Annex VI, on or before 31 December 2018.

In the case of a ship of 5,000 gross tonnage and above, the Ship Energy Efficiency Management Plan (SEEMP) shall include a "Part II" describing the methodology that will be used to collect the data required by regulation 22A of MARPOL Annex VI and the process that will be used to report the data to the ship's Administration.

IMO's MEPC 282(70) contains guidance for developing a SEEMP including:

- Appendix 2, Sample Form of Ship Fuel Oil Consumption Data
- Collection Plan (Part II of the SEEMP)
- Appendix 3, Standardized Data Reporting Format for the Data Collection System

You may find the detailed information on this subject in the link further below:
